Item No. 1: Call to Order/Roll Call. The meeting was called to order at 10:30 a.m. Present were President Deby Provost, Trustee Paul Marsh, Andy Pinasco, District Counsel/Secretary, and Joe Prescott, District Engineer. Also present were Juan Nierra of the San Joaquin Area Flood Control Agency (SJAFCA), and Vin Lee, Greg McClain, and Kyle Sherman of the Stockton Police Department (SPD), who attended as part of a strategic operations briefing regarding unhoused individuals. Introductions were made.

Item No. 2: Public Comment. There was no public comment.

Item No. 3: Minutes. The minutes of the District's special meeting of January 16, 2026, were approved unanimously by the Trustees present on a motion by Trustee Paul Marsh, seconded by President Deby Provost.

Item No. 4: Financial Report. Mr. Pinasco presented the District's Financial Report and reviewed it with the Trustees. After discussion, the Financial Report was accepted and approved unanimously by the Trustees present on a motion by Trustee Paul Marsh, seconded by President Deby Provost. The Board also discussed and directed that the employee fund be moved to the County.

Item No. 5: Oath of Office. Trustee Miguel Villapudua was not present.

Item No. 6: Election of Officers. The Board conducted its annual election of officers. After discussion, the following officers were unanimously elected on a motion by President Deby Provost, seconded by Trustee Paul Marsh:

- (a) President: Deby Provost
- (b) Vice-President: Paul Marsh
- (c) Secretary: Andy Pinasco

Item No. 7: Engineer's Report. Mr. Prescott provided a written and oral report on the following:

I. AB 360 DELTA LEVEE SUBVENTIONS PROGRAM

A. Mr. Prescott reported that the Levee Maintenance Project for Fiscal Year 2025/2026 is complete. He noted that the project did a great deal to improve the condition of the district's

levees. General photos taken April 10, 2026 were presented as Exhibit A. Juan Nierra of SJAFCA attended and participated in a discussion regarding erosion of the levee caused by homeless encampments and angler use, including a broken storm drain outlet that is flush with the levee. Mr. Prescott indicated that the area would be considered for riprap reinforcement to address the erosion.

B. Mr. Prescott reported that no additional levee maintenance work is anticipated for Fiscal Year 2025/2026 beyond continuing vegetation control. He reported that planning for Fiscal Year 2026/2027 would include Rock Slope Protection work previously identified in the FY 2025/2026 plans but not completed due to budget constraints, including one area on Shimizu near the west end near Pixey Woods (including storm drain extension) and approximately six additional repair sites along the levee. Mr. Prescott indicated that a contract under \$25,000 should be sufficient to address the erosion repairs.

After discussion, the Trustees present unanimously authorized KSN to develop a project under \$25,000 for Fiscal Year 2026/2027 and to maintain vegetation control spray contracts with ChemWeed, on a motion by Trustee Paul Marsh, seconded by President Deby Provost.

C. Mr. Prescott reported that ChemWeed is contracted to continue maintenance vegetation control on the levees. President Provost reported that the vegetation control contractor is a new provider and expressed concern regarding the sequence in which the work was performed, noting that vegetation was sprayed and then cut within a few days thereafter. President Provost indicated she would report her concerns regarding the sequencing to Dave Carr or Chris Neudeck of KSN, the District Engineer. The ChemWeed proposal dated November 11, 2025 was presented as Exhibit B.

D. Officers of the Stockton Police Department (SPD) attended and reported on homeless encampments on District levees. Contact information was provided to Trustee Provost. SPD also provided information regarding the AskStockton application, which the City uses to generate work orders for law enforcement issues on the District's levees.

Item No. 8: Correspondence. Mr. Pinasco reported that the RD 1614 Town Hall meeting will be held on May 4, 2026. There was no other correspondence to review.

Item No. 9: Meetings Attended. President Provost reported that she obtained a spray license from the County.

Item No. 10: Trustee Reports. The Trustees reported that the levee is looking good following the work performed under the FY 2025/2026 maintenance project.

Item No. 11: Future Agenda Items. There were no future agenda items to add at this time.

Item No. 12: District Calendar. Mr. Pinasco reviewed the District calendar with the Trustees. The next regular meeting is scheduled for July 13, 2026, at 10:30 a.m.

Item No. 13: Bills. Mr. Pinasco reported on the outstanding bills that had been received and the status of the District's accounts. On a motion by President Deby Provost, seconded by Trustee Paul Marsh, the Trustees present unanimously approved payment of the attached bills identified on the bills paid report, including a \$100.00 warrant to President Provost for attending a meeting with the County.

Item No. 14: The meeting was adjourned at 12:02 p.m. by unanimous vote of the Trustees present.

Respectfully submitted,

Andy Pinasco, District Secretary

RECLAMATION DISTRICT NO. 828
DRAFT PROPOSED BUDGET FOR FISCAL YEAR 2026-2027

Code	Line Item	FY 2025-2026 Adopted Budget	FY 2025-2026 Actual (100%)	FY 2026-2027 Budget	\$ Change	Rationale
EXPENSES						
GENERAL FUND						
Administrative						
G1	Annual Audit	\$5,300.00	\$5,800.00	\$5,800.00	\$500.00	Actual came in at \$5,800 (109% of budget). Audit fee is essentially a fixed contract cost; budgeting at the realized amount rather than under it again.
G2	Public Communication and Noticing	\$1,500.00	-	\$1,500.00		No change. Actual was \$0 this year, but noticing costs are lumpy
G3	Election Expense	-	\$50.00	-		- (elections, hearings), so the buffer stays.
G4	Trustee Fees	\$1,200.00	\$1,900.00	\$2,000.00	\$800.00	No change. Actual was an immaterial \$50. Confirm with the county whether a trustee election is scheduled for FY26-27.
G5	County Assessment Administration	\$1,000.00	\$501.62	\$1,000.00		Up from \$1,200. Actual was \$1,900 (158% of budget), continuing the same pattern as FY24-25 (\$2,988 actual against the same \$1,200 budget). This line has been understated for three years running.
	SUBTOTAL	\$9,000.00	\$8,251.62	\$10,300.00	\$1,300.00	No change. Actual ran at 50% of budget; keeping the buffer since the - county sets this fee, not the district.
Consultants						
G6	Engineering					
G7	General Engineering	\$8,500.00	\$5,279.67	\$8,500.00		No change. Actual came in under budget at \$5,279.67 (62%). Note this reverses the prior draft's recommendation to raise this line to \$20,000, which had been based on a stale FY24-25 actual of \$19,725; the real - FY25-26 experience does not support that increase.
G8	Levee Subventions Management	\$11,000.00	\$15,031.70	\$15,000.00	\$4,000.00	Up from \$11,000. Actual was \$15,031.70 (137% of budget), the second straight year this line has run over. Budgeting to the realized cost.
G9	Levee Maintenance (Engineering)	\$7,500.00	-	\$7,500.00		No change. Zero actual spend two years running, but retaining as standby - funding in case DWR triggers inspection or repair design work.
G10	DWR Five Year Plan	-	-	-		No change. Confirm the timing of the district's next required DWR five-year plan update; fund this line directly if one falls due in FY26-27.
G11	General Legal	\$16,000.00	\$27,949.00	\$26,000.00	\$10,000.00	Up from \$16,000. Actual was \$27,949 (175% of budget), following FY24-25 actual of \$18,861 against the same \$16,000 budget. Two consecutive years of material overrun; \$26,000 tracks realized cost. Confirm with the district's counsel whether any of this reflects one-time matters (e.g., litigation, easement work) that will not recur before the board adopts this figure.
	Oil Spill Costs (Reimb)	-	-	-		No change. Reimbursable, non-recurring item.
	SUBTOTAL	\$43,000.00	\$48,260.37	\$57,000.00	\$14,000.00	
Other						

					Up from \$14,000. Actual landed almost exactly at budget (\$14,010), but that itself is a 23% jump over the FY24-25 actual of \$11,356. Public agency liability and property pool premiums are trending up district-wide; budgeting for continued increase rather than assuming the premium holds flat. Adjust once the FY26-27 renewal notice is in hand.
G12	Insurance	\$14,000.00	\$14,010.00	\$15,500.00	\$1,500.00
G13	Emergency Equipment & Supplies	-	-	-	-
	SUBTOTAL	\$14,000.00	\$14,010.00	\$15,500.00	\$1,500.00
	TOTAL GENERAL FUND	\$66,000.00	\$70,521.99	\$82,800.00	\$16,800.00
	<u>RECURRING EXPENSES</u>				
	Levee (R1)				
					Up sharply from \$10,000. Actual was \$21,652.81 (217% of budget), more than double. Budgeting close to realized need rather than repeating a two-times-over shortfall.
R1A	General Maintenance	\$10,000.00	\$21,652.81	\$20,000.00	\$10,000.00
					Up modestly from \$35,000. Actual spend was only \$10,430 (30% of budget) this year, well under both the current budget and the \$100,000 originally proposed for FY25-26 (which the board declined). Recommend the board confirm with the district's levee engineer whether the lower pace of work reflects an adequate maintenance program or deferred risk before finalizing; \$40,000 is a modest step up, not a resolution of that underlying question.
R1B	Riprap and Levee Repair	\$35,000.00	\$10,430.00	\$40,000.00	\$5,000.00
					Down from \$25,000. Actual was \$5,982.50 (24% of budget), consistent with FY24-25 actual of \$4,440 against the same budget. Two straight years of significant under-utilization justify a real reduction, not just carrying forward unused slack; \$15,000 still leaves meaningful cushion above either year's actual.
R1C	Weed Control	\$25,000.00	\$5,982.50	\$15,000.00	(\$10,000.00)
R1D	Animal Damage Control	-	-	-	-
	SUBTOTAL	\$70,000.00	\$38,065.31	\$75,000.00	\$5,000.00

	<u>INCOME</u>				
	Assessment - Existing	\$48,641.60	\$64,581.30	\$53,000.00	\$4,358.40
					\$53,000 corresponds with 100% of assessment pursuant to tax roll
	Interest	\$1,500.00	\$11,710.00	\$10,000.00	\$8,500.00
					Up from \$1,500. Actual was \$11,710 (781% of budget), though down from FY24-25's \$18,806 on the same fund balance, consistent with softening rates on LAIF/CAMP-type pooled investments. \$10,000 tracks the realized downward trend rather than either extreme.
	Subvention Reimbursement	\$55,000.00	-	\$90,000.00	\$35,000.00
	Emergency Operations Plan	-	-	-	-

AND ESTABLISHING A PROCEDURE FOR COLLECTION**

WHEREAS, Reclamation District No. 828 provides a benefit and service to the land located within the District by the repair, upgrading, maintenance and operation of the reclamation works of the District in that such works serve to prevent the flooding of the land within the District; and

WHEREAS, the revenues received by the District from the County of San Joaquin in accordance with the statutes enacted under Article XIII A of the California Constitution are insufficient to provide the benefits and services which the District is obligated by the California Water Code to provide, and specifically are insufficient to insure proper maintenance of the reclamation works and to provide for emergencies; and

WHEREAS, the District is empowered by sections 51200 et seq. and section 50904 of the California Water Code to fix and collect assessments for the provision of such benefits and services to supplement the revenues received from the County of San Joaquin, and to provide for the collection of such assessments by the San Joaquin County Auditor, and to provide for penalties and procedures in the event of delinquency of payment of such assessments; and

WHEREAS, this Resolution is in compliance with the California Water Code; and

WHEREAS, the District has complied with the procedures of California Constitution Articles XIIC and XIID; and

NOW, THEREFORE, BE IT RESOLVED, AND IT IS HEREBY RESOLVED, by the Board of Trustees of Reclamation District 828 that:

1. The foregoing recitals are true and correct and this Board so finds and declares.
2. It is the determination of the Board that the benefits and services provided by the District apply to each lot within the District except as specific adjustments have been approved by this Board after hearing.
3. The assessments for the fiscal year 2026-2027 are established in the amount of \$0.054 for each \$100.00 of assessed valuation on the Operation and Maintenance Assessment Roll for this District as adopted by the Board of Supervisors of San Joaquin County on July 30, 1991.
3. The San Joaquin County Auditor is requested to collect such assessments, as set forth on Exhibit "A" attached hereto.

4. Such assessments shall appear as a separate item on the San Joaquin County Property Tax Bill for fiscal year 2026-2027 and shall be collected at the same time and in the same manner as the San Joaquin County Ad Valorem Property Taxes, and shall be subject to the same penalties and the same procedure and sale in case of delinquency as are provided by law for such County taxes.

5. In the case of all parcels within the District which are owned in common by more than one owner, and which do not have a separate legal entity holding the title thereto, the assessments otherwise applicable thereto shall be paid equally by the common owners.

6. In the case of all Planned Unit Residential Development areas (exclusive of independent recreation facilities, independent common green parcels, and entrance features which shall be billed to the applicable owner's association), assessments established by this Resolution shall be apportioned equally to each residential unit in such areas.

7. The revenue so collected which is necessary for the provisions of said benefits and services, is supplemental to the revenues received by the District from the County of San Joaquin in accordance with the statutes enacted under Article XIII A of the California Constitution and is not in lieu thereof.

8. The President and Secretary of the District are hereby authorized and directed to execute such documents as are necessary to carry out this Resolution.

9. The Engineer and Attorney for the District are hereby authorized and directed to assist the Auditor of San Joaquin County in preparing the rolls to comply with this Resolution, and to bill separately those parcels assessed which do not appear on the rolls.

10. The Secretary of the District is hereby authorized and directed to certify a copy of this Resolution to the Auditor of San Joaquin County.

We are pleased to confirm our understanding of the services we are to provide Reclamation District No. 828 for the year ended June 30, 2026.

Audit Scope and Objectives

We will audit the financial statements of the governmental activities, each major fund, and the disclosures, which collectively comprise the basic financial statements of Reclamation District No. 828 as of and for the year ended June 30, 2026.

The objectives of our audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; issue an auditor's report that includes our opinion about whether your financial statements are fairly presented, in all material respects, in conformity with the cash basis of accounting. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements

We will conduct our audit in accordance with GAAS and will include tests of your accounting records and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. We will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the District or acts by management or employees acting on behalf of the District.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by us, even though the audit is properly planned and performed in accordance with GAAS. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation of assets that comes to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and direct confirmation of certain assets and liabilities by correspondence with selected creditors and financial institutions. We will also request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry.

We may, from time to time and depending on the circumstances, use third-party service providers in serving your account. We may share confidential information about you with these service providers but remain committed to maintaining the confidentiality and security of your information. Accordingly, we maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, we will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and we will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event we are unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, we will remain responsible for the work provided by any such third-party service providers.

Our audit of the financial statements does not relieve you of your responsibilities.

Audit Procedures—Internal Control

We will obtain an understanding of the District and its environment, including the system of internal control, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. Accordingly, we will express no such opinion. However, during the audit, we will communicate to

management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

We have identified the following significant risks of material misstatement as part of our audit planning:

- According to GAAS, significant risks include management override of controls, and GAAS presumes that revenue recognition is a significant risk. Accordingly, we have considered these as significant risks.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of Reclamation District No. 828's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Responsibilities of Management for the Financial Statements

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the financial statements in conformity with the cash basis of accounting.

You are responsible for including all informative disclosures that are appropriate for the cash basis of accounting. Those disclosures will include (1) a description of the cash basis of accounting, including a summary of significant accounting policies, and how the cash basis of accounting differs from GAAP; (2) informative disclosures similar to those required by GAAP; and (3) additional disclosures beyond those specifically required that may be necessary for the financial statements to achieve fair presentation.

Management is also responsible for making drafts of financial statements, all financial records, and related information available to us and for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the District from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the District involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the District received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the District complies with applicable laws and regulations.

Other Services

We will prepare the financial statements of Reclamation District No. 828 in conformity with the cash basis of accounting based on information provided by you. We will also prepare the Special Districts – Local Government Compensation Report and the Special Districts Financial Transaction Report.

We will perform the services in accordance with applicable professional standards. The other services are limited to the financial statement services previously defined. We, in our sole professional judgement, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

You agree to assume all management responsibilities for financial statement preparation services and any other nonattest services we provide; oversee the services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of the services; and accept responsibility for them.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all cash or other confirmations we request and will locate any documents selected by us for testing. We will schedule the engagement based in part on deadlines, working conditions, and the availability of your key personnel. We will plan the engagement based on the assumption that your personnel will cooperate and provide assistance by performing tasks such as preparing requested schedules, retrieving supporting documents, and preparing confirmations. If, for whatever reason, your personnel are unavailable to provide the necessary assistance in a timely manner, it may substantially increase the work we have to do to complete the engagement within the established deadlines, resulting in an increase in fees over our original estimate.

The audit documentation for this engagement is the property of Schwartz, Giannini, Lantsberger & Adamson and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Schwartz, Giannini, Lantsberger & Adamson personnel.

Nikolas Torres is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it. We expect to begin our audit on approximately August 1, 2026 and to issue our reports no later than October 1, 2026.

Our fee for these services is \$6,000. An invoice will be rendered upon completion of our audit and is payable upon presentation. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs.

Reporting

We will issue a written report upon completion of our audit of Reclamation District No. 828's financial statements. Our report will be addressed to the Board of Trustees of Reclamation District No. 828. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add a separate section, or add an emphasis-of-matter or other-matter paragraph to our auditor's report, or if necessary, withdraw from this engagement. If our opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or withdraw from this engagement.

We appreciate the opportunity to be of service to Reclamation District No. 828 and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the attached copy and return it to us.

Very truly yours,

Nikolas Torres, CPA

Sukhjinder,

Thank you for the opportunity to review and discuss the proposed levee slope repair and revetment improvements associated with the Smith Canal / I5 Bridge area. Based upon discussions with Caltrans staff and our review of the project, Reclamation Districts 828 and 1614 offer the following comments and considerations for project development.

The Districts' primary objective is that the waterside levee slopes be restored to meet the original levee contours and provide a uniform, maintainable levee section. As can be observed along much of Smith Canal, including upstream and downstream of the Interstate 5 crossing and within the open-air canal sections between the northbound and southbound lanes, the repaired slopes should blend into the existing levee geometry and tie into adjacent maintained levee sections. Restoration should be performed in a manner consistent with typical waterside levee slope repairs completed throughout the Districts.

The size, gradation, thickness, and configuration of the rock slope protection should be determined by the Project Design Engineer based upon site-specific hydraulic, geotechnical, and maintenance considerations. The Districts do not prescribe specific rock sizing; however, the Districts generally do not utilize geotextile fabric drainage layers due to historical performance issues experienced on District facilities. Any drainage layer or filter design should therefore be evaluated by the Project Design Engineer using accepted engineering practices.

The Districts note that these repair standards are generally consistent with other levee slope repair projects performed within the reclamation districts. Because the affected area is within Caltrans jurisdiction and will remain subject to Caltrans maintenance responsibilities, the Districts do not wish to impose requirements that exceed those normally considered for similar levee repairs or that would unnecessarily complicate future maintenance activities.

With respect to long-term site security and protection from future disturbance, several alternatives were discussed, including larger riprap sizing, minimally grouted riprap, and security fencing. One concept that warrants consideration is the use of larger or minimally grouted rock slope protection to make removal and displacement of individual rock pieces more difficult. This approach may provide additional protection while maintaining a repair method familiar to maintenance personnel.

Regarding revetment design, the Districts have successfully utilized launchable rock protection on previous projects. This generally consists of a keyway or cutoff trench located near the Mean High Water (MHW) elevation with additional rock accumulated in the trench area. The intent is that, should future scour or erosion occur, the rock can naturally launch and fall into place, maintaining slope protection without sudden failure. Consideration should be given to providing launchable rock from the keyway elevation upward to approximately Elevation 12 feet (NAVD88), or another elevation determined by the Design Engineer, while blending into and tying with the existing revetment sections maintained by the respective reclamation districts.

For reference, we have provided plans from a KSN-designed levee erosion repair project located downstream on the RD 1614 side of Smith Canal. The cross-section details contained in those plans provide an example of a launchable rock design utilizing a keyway trench and may be useful as a conceptual reference during project development. The typical repair section shown in the referenced plans illustrates the use of keyed rock slope protection intended to launch into future scour areas while maintaining levee integrity. Size of rock identified on the plan set was selected to deter rock displacement and has had very good success limiting camping.

The Districts understand that Caltrans Maintenance has also considered installation of a fortified exclusion or security fence. The Districts take no exception to the installation of security fencing; however, we caution that fencing may ultimately create additional maintenance challenges that outweigh its benefits. A fence could restrict maintenance access, require installation of gates, and create long-term maintenance obligations. Further, fencing may not effectively prevent unauthorized access beneath the bridge structures, as access from the waterway would remain possible. Because this project is intended to restore the waterside levee slopes to their original configuration and remove existing benches or disturbed areas, accommodating gated access could become more difficult without additional grading modifications.

Drainage considerations should also be incorporated into project development. During site review, exposed drainage pipes were observed along the south bank within RD 828. Additional reconnaissance is recommended to identify the function, condition, discharge locations, and any damage to these facilities so that proper drainage is maintained following construction.

Additionally, we have provided a recent Encroachment Permit and Reimbursement Agreement used between a reclamation district and Caltrans on another bridge-related project. While project-specific modifications would be expected, the agreement may serve as a useful starting point for discussions regarding permitting, access, construction monitoring, reimbursement of District costs, and long-term maintenance responsibilities.

Finally, the Districts note that the general approach outlined herein is consistent with previous comments provided during Caltrans' earlier planning review for the Smith Canal levee restoration effort, including restoration of levee slopes, consideration of rock slope protection transitions, access, maintenance, permitting, and long-term levee integrity.

We appreciate the opportunity to coordinate with Caltrans on this important maintenance project and look forward to continued participation during project development and permitting.

Sincerely,

NOTICE OF INTENT TO APPLY PUBLIC HEALTH PESTICIDES FOR VECTOR CONTROL PURPOSES TO SURFACE WATERS AND WATERS OF THE U.S. WITHIN SAN JOAQUIN COUNTY, CA

1. The San Joaquin County Mosquito and Vector Control District (the District) intends to apply public health pesticides to, over and adjacent to canals, ditches, or other constructed conveyance facilities owned and controlled by an entity other than the District, as well as surface waters and waters of the U.S. for vector control purposes per the requirements of the General NPDES Permit for Biological and Residual Pesticide Discharges for Vector Control Applications.
2. The NPDES Permit requires listing of the Public Health Pesticides anticipated to be used by the District. The permit requirements specify that any pesticide product can be used that contains approved active ingredients, provided all pesticide label restrictions and instructions are followed. In addition, pesticides which fall under the "minimal risk" category can be used. The minimum risk pesticides have been exempted from FIFRA requirements. The following tables list the active ingredients approved for the FIFRA regulated pesticides.

3.

Active Ingredients for larval mosquito control:
Bacillus thuringiensis var. israelensis
Bacillus sphaericus (Lysinibacillus sphaericus)
Methoprene
Monomolecular Films
Petroleum Distillates
Pyriproxyfen
Spinosad
Active Ingredients for adult mosquito control:
Deltamethrin
Etofenprox
Lambda-Cyhalothrin
Malathion
Naled
N-octyl bicycloheptene dicarboximide (MGK-264)
Piperonyl butoxide (PBO)
Permethrin
Prallethrin
Pyrethrin
Resmethrin
Sumithrin

4. The purpose of the use of larvicide and adulticide pesticides containing these active ingredients is to control immature and adult mosquitoes. Controlling mosquitoes will reduce annoyance and disease transmission to humans, domestic animals, and wildlife.
5. The general time period for the application of the pesticides is January through December, 2026. The locations of expected use will be canals, ditches, or other constructed conveyance facilities owned and controlled by an entity other than the District, as well as surface waters and waters of the U.S. within San Joaquin County, CA.
